About Hyperpigmentation

2.1 ABOUT HYPERPIGMENTATION

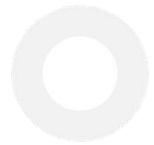

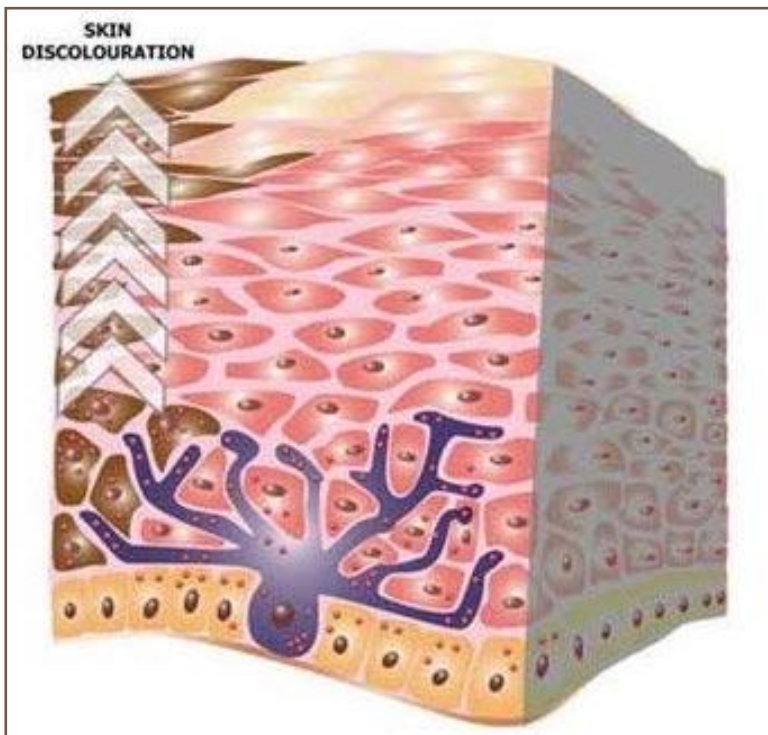

What is Hyperpigmentation?

Hyperpigmentation is the darkening of an area of skin caused by increased melanin production.

A

B

2.1 ABOUT HYPERPIGMENTATION

What are **Signs** and **Symptoms** of Hyperpigmentation?

Hyperpigmentation

Age or Liver Spots

Birth Marks

Unusual Discoloration

2.2 TYPES OF HYPERPIGMENTATION

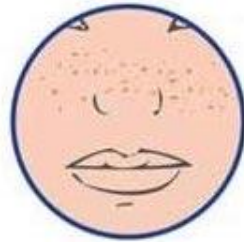

COMMON TYPES

BROWN SPOTS

MELASMA

FRECKLES

Brown spots

Vary in size and usually appear on the face, hands, shoulders and arms.

Melasma

It is characterized by brown to grey patches that mostly occur on your forehead, chin, nose, cheeks, or on the upper lip.

Freckles

These consist of flat brown or red patches that disappear with a reduction of exposure to the sun light.

Other types

Chloasma

Also referred to as the “mask” of pregnancy, chloasma is also caused by exposure of the skin to the sun although it only occurs in pregnant mothers.

Solar Lentigens (Sun Damage)

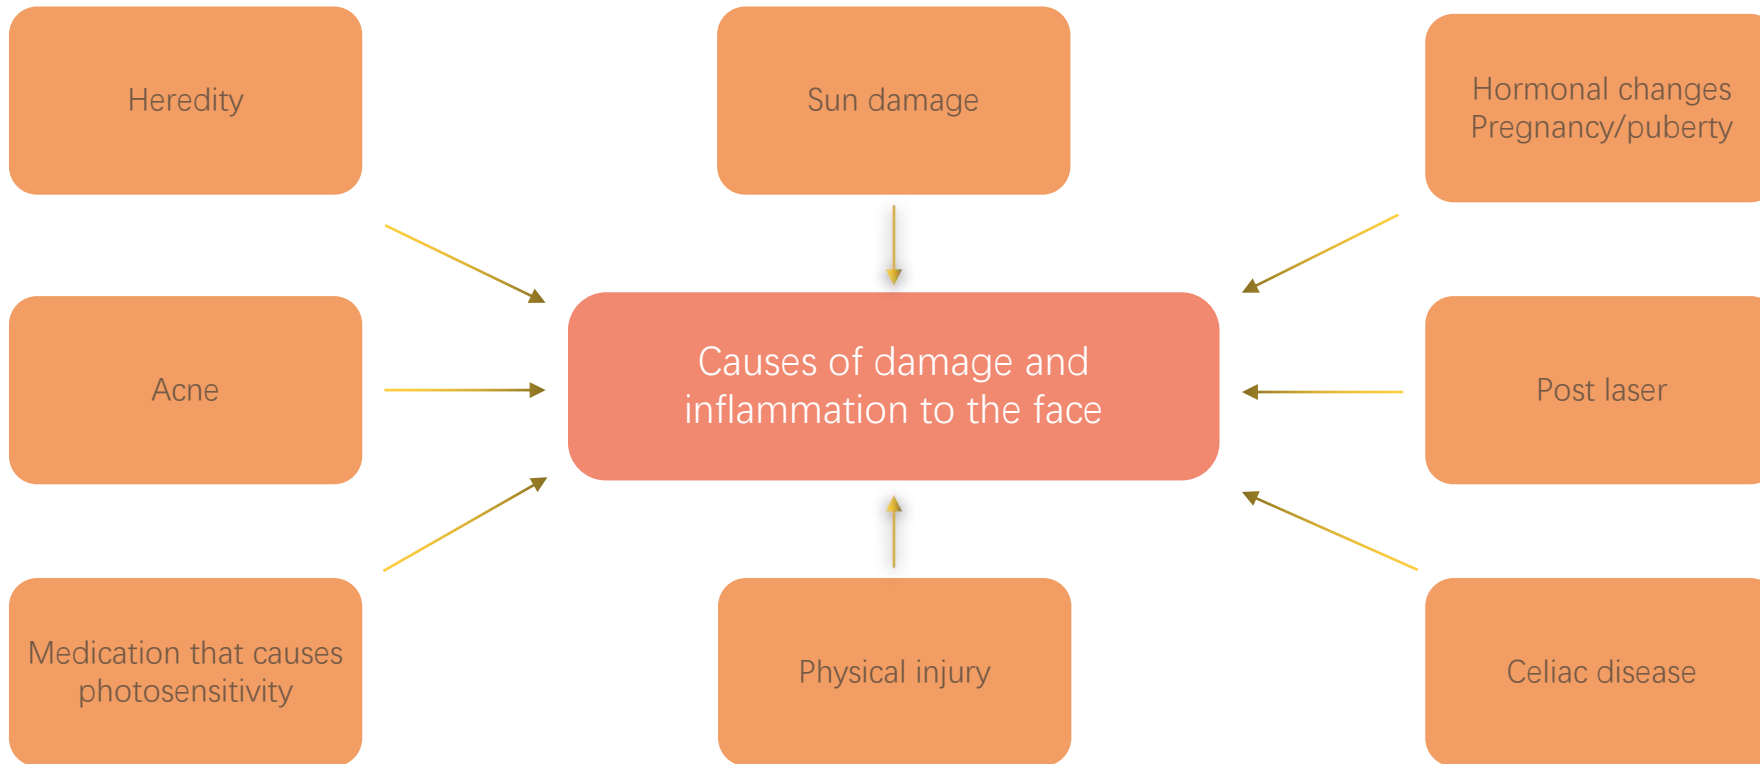

Also known as Sun Damage, solar lentigens refer to dark (hyper pigmented) spots caused by exposure to the sun’s UV light.

PIH (Post Inflammatory Hyperpigmentation)

These refer to a variety of spots with a range of colors usually left behind following pimples infections or wounds.

2.3 CAUSES OF HYPERPIGMENTATION

What are the **Causes** of Hyperpigmentation?

Part 3

WHITENING SET

3.0 WHITENING SET

Products contained as follows:

1. Repair Factor Essence ---- 50ml
2. Whitening Essence --- 50ml
3. Sunblock Cream --- 50g
4. Moisturizing Rejuvenation Silk Mask
--- 25g*6pcs

3.1 REPAIR FACTOR ESSENCE

Sterile Packing

Epidermal Growth Factor (EGF)

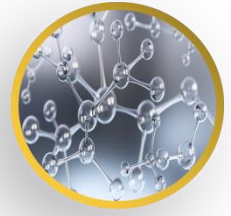

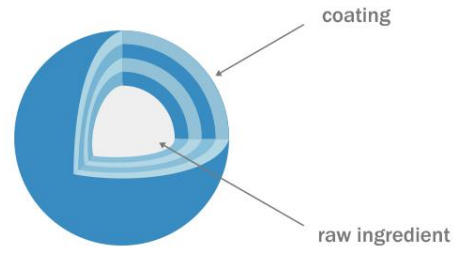

- Repair damaged cutin
- Promote collagen synthesis and prevent aging

Microencapsulation Technology

- Spray formulation
- Improve stability
- Room temperature storage

Hydrolyzed Collagen

- Repairing
- Locking water

Hyaluronic Acid

- Deep moisturizing,
- Reduce the secretion of inflammatory mediators

3.2 WHITENING ESSENCE

**Microencapsulation
Technology**

Tranexamic Acid

- Inhibiting tyrosinase activity, reduce the formation of melanin
- Opening PGE2 pathway to intervene the inflammation

Hydrolyzed Collagen

- Repairing skin
- Locking water

Ascorbic Acid

- Interfering with the production of melanin
- Reducing abnormal pigmentation

Hyaluronic Acid

- Deep moisturizing
- Reducing the secretion of inflammatory mediators

3.2 WHITENING ESSENCE

Chloasma

Acne mark

Postoperative complications after laser treatment

Sunburn

Pigmentation

This Whitening Essence can reduce melanin, inhibit tyrosinase activity, block the transmission of melanin, accelerate the decomposition and excrete melanin

Clinical Study on the Effect of Whitening Essence and Repair Factor Essence in the Treatment of Chloasma

Dermatology Department, SUN YAT-SEN MEMORIAL HOSPITAL(SYSH) Yueping Mao

Methods:

1. By random, open and self - control method,
2. 38 patients with epidermal and mixed chloasma were treated with externally used Repair Factor Essence and Whitening essence twice a day
3. Its efficacy and safety were evaluated 2 months later.

A. Before

B. After

Results:

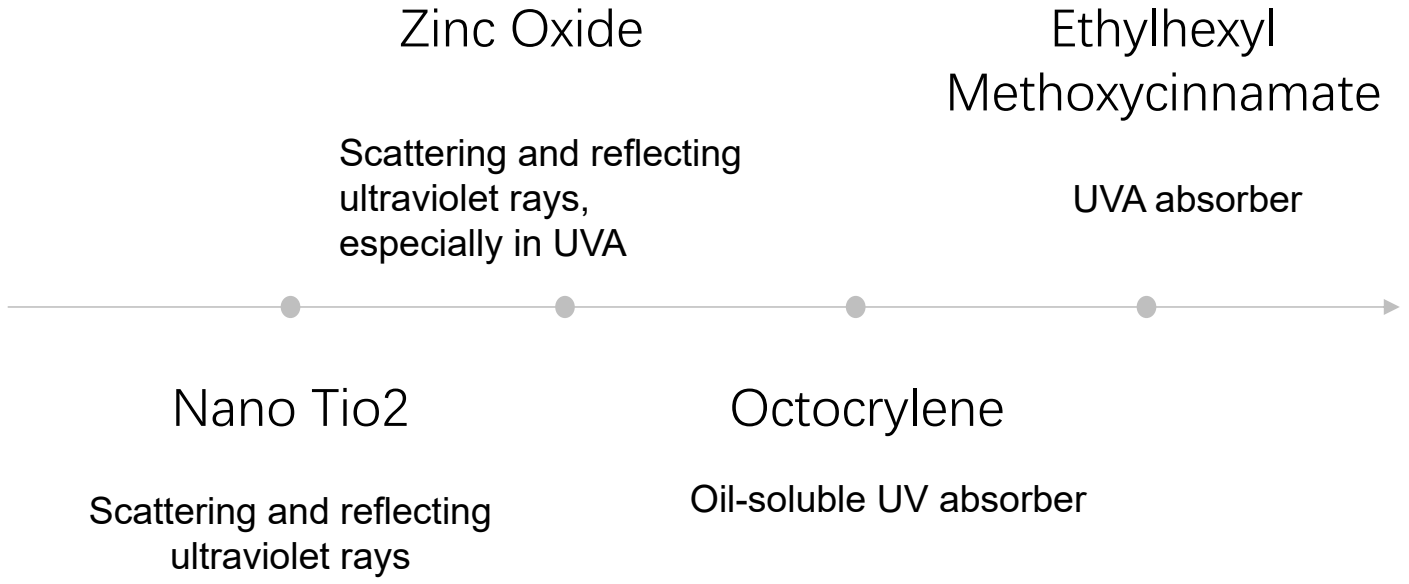

After 2 months, the total effective rate was **84.21%**, of which 1 case (2.63%) was cured, 11 cases (28.94%) markedly improved, 20 cases (52.63%) improved, and 6 cases (15.79%) ineffective.

3.3 Sunblock Cream

Broad Spectrum Sunscreen:
Ensures your SPF protects against both harmful UVA and UVB rays.

SPF50 PA+++

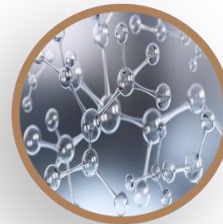

3.4 Moisturizing Rejuvenation Silk Mask

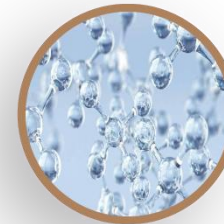

Dipotassium Glycyrrhizinate

Soothe and calm skin

Hydrolyzed Collagen

Repairing
Locking water

Hyaluronic Acid

Deep moisturizing,
Reduce the secretion of inflammatory mediators

Part 4

Usage Introduction

3.1 How to Care Your Skin?

Cleansing

- Soap-free cleanser
- Mild Amino Acid formula
- Warm water
- Don't over-washing or over-exfoliation

Moisturizing

- Effective ingredients such as: Jojoba Oil, Ceramide, HA;
- Hydration & Anti-oxidiant;
- Apply a facial mask regularly

Sun Protection

- Llimit your sun exposure during daytime
- Physical protection measures
- Apply sunblock lotion to avoid UV rays no matter rain or shine

Daily Care

- Simplify skincare routine
- Good life habit
- Facial massage
- Dermatology skincare

3.2 How to use Whitening Set?

Step 1: Cleansing

- Soap-free cleanser
- Warm water
- Don't over-washing or over-exfoliation
- Twice a day, in the morning and at night.

Cocamidopropyl Betaine
Neutral betaine surfactant

Tea Tree Essential Oil
Oil Control, Shrink Pores

Chamomile Oil
Soothe Skin
Anti-inflammation

TP Cleansing Foam

(Spec.:150ml)
Not included in the Whitening Set

3.2 How to use Whitening Set?

Step 2: Moisturizing & Whitening

- Effective whitening ingredients such as: Tranexamic Acid, Ascorbic Acid;
- Limit your sun exposure during daytime.

Repair Factor Essence

Whitening Essence

Skin Barrier Repairing Gel

(Spec.:50g)
Not included in the Whitening Set

Sunblock Cream

3.2 How to use Whitening Set?

Step 3: Whitening & Soothing

- Follow the rule to apply from light-weight essence to thick cream;
- Hydration & Anti-oxidiant;
- Apply a facial mask regularly

Repair Factor Essence

Mandelic Acid Renewal Serum
(Spec.:15ml)

Skin Barrier Repairing Gel
(Spec.:50g)
Not included in the Whitening Set

Not included in the Whitening Set

Moisturizing Rejuvenation Silk Mask

3.3 How to Care your Skin in Daily Life?
